EASYFIX Roller Blind Magic Screen

The EASYFIX roller blind Magic Screen can be attached to the window casement without drilling or screwing. The adjustable clamp brackets can be adjusted to fit almost any window casement and mounted on it. Adhesive mounting is also possible. The mounting rail means that the roller blind can be installed particularly quickly. The fabric is ideal for glare protection and at the same time provides a good view of the outside. From the outside, the roller blind still offers privacy during the day. The EASYFIX roller blind Magic Screen is rolled up and down using a chain. The chain can be mounted on the right or left.

white

Fabric 30% Polyester, 70% PVC, translucent, easy-care fabric with a damp cloth, glare and heat protection, yet a good view to the outside, daytime privacy, mini roller shaft Ø 18 mm, blind pre-mounted on mounting rail, glueing or clamping for easy installation on the window sash, clamp brackets adjustable (14-25 mm), screw mounting possible, side-pull drive either right or left-hand side roller blind width - approx. 3 cm = fabric dimension

EASYFIX Soft-Roller Blind Thermo

The EASYFIX soft roller blind Thermo can be attached to the window casement without drilling or screwing. The adjustable clamp brackets can be adjusted to fit almost any window casement and mounted on it. Screw mounting is also possible. The fabric is opaque and its aluminium-coated back saves energy in cold months and repels heat in warm months. The roller blind can be locked in any height by hand. The innovative technology of the EASYFIX soft roller blind Thermo makes it roll up as if by itself. The roll-up speed can be regulated via an adjustment wheel.

244 white

Fabric 100% polyester, opaque, back with thermal coating, mini roller shaft Ø 18 mm, for clamping for easy installation on the window casement, clamp bracket adjustable (12-24 mm), screw mounting possible, bracket white, operating handle transparent, with pre-assembled spring, locking at any height, roll-up speed adjustable via adjusting wheel
Roller blind width - approx. 3 cm = fabric size

Info: Clamp bracket only suitable for windows with rubber seal.

EASYFIX Double Roller Blind Triangle

The EASYFIX double roller blind Triangle can be attached to the window casement without drilling and screwing. The adjustable clamp brackets can be adapted to fit on almost any window casement and mounted on it. Adhesive mounting is also possible. The roller blind is very quickly fitted by means of the mounting rail. The fabric is woven in alternating transparent and opaque segments which run against each other twice. Visibility and light can therefore be very precisely metered. The EASYFIX double roller blind Triangle is rolled up and down by means of a chain. The chain can be mounted on the left or right-hand side. For care, the fabric can be brushed off with a brush or feather duster or carefully wiped with a damp cloth (without detergent).

white/grey

Fabric 100% polyester, fabric woven in segments for adjustable light dosage, an extraordinary effect is created in every operating position, mini roller shaft Ø 18 mm, glueing or clamping for easy mounting on the window casement, clamping bracket adjustable (14-25 mm), screw mounting possible, side-pull drive can be mounted on the right or left
roller blind width - approx. 3 cm = fabric dimension

EASYFIX Double Roller Blind Cut-Out

The EASYFIX double roller blind Cut-Out can be attached to the window casement without drilling or screwing. The adjustable clamp brackets can be adjusted to fit almost any window casement and mounted on it. Adhesive mounting is also possible. The fabric runs double against each other. Alternating woven areas and areas cut out in geometric shapes create a special play of light. Visibility and light can thus be very precisely metered. The EASYFIX double roller blind Cut-Out is rolled up and down using a chain. The chain can be mounted on the right or left. For care, the fabric can be brushed off with a brush or feather duster or carefully wiped with a damp cloth (without detergent).

Triangle white

Fabric 100% polyester, the fabric is woven with alternating open and closed areas and runs double against each other, an extraordinary effect is created in every operating position, mini roller shaft Ø 18 mm, with mounting rail, gluing or clamping for easy installation on the window casement, clamp bracket with adjustment range 14-25 mm, screw mounting possible, side wind gear can be mounted either on the right or left Roller blind width - approx. 3 cm = fabric dimension

Side-pull Roller Blind SHADING

The side-wind roller blind SHADING is attached with screws to the wall, ceiling or in the window recess. The fabric is opaque and – through its colour-matched special coating on the reverse side of the fabric – provides perfect shading of the room. The roller blind is rolled up and down by means of a chain. The chain can be mounted on the left or right-hand side. The white end profile ensures a high-quality look.

390 white

Side-pull Roller Blind Thermal ENERGY-SAVING

The roller blind Thermo ENERGY SAVING is fastened with screws to the wall, ceiling or in the window recess. The material is opaque and – through its colour-matched special coating on the reverse side of the fabric – provides perfect darkening of the room. The aluminium coating is also energy-saving in cold months and heat-repellent in warm months. The roller blind is rolled up and down by means of a chain. The chain can be mounted on the left or right-hand side. The white end profile ensures a high-quality look.

441 white

Fabric 100% polyester, opaque, with side-pull gear GT-1, highest light reflection, thermal rear side aluminium-coated, metal shaft Ø 25 mm, incl. mounting material for ceiling, wall or recess mounting, side-pull drive can be mounted on right or left, closure profile in white
roller blind width - approx. 4 cm = fabric dimension

Tip: installation without drilling or use of screws with clamping bracket, art. no. 7063.

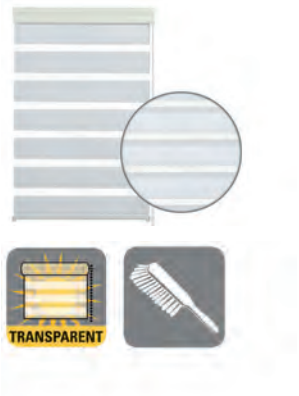
DOUBLE ROLLER BLIND WITH CASSETTE

The double roller blind with cassette is attached with screws to the wall or ceiling. The fabric is woven in alternating transparent and opaque stripes which run against each other twice. The visibility and light can therefore be very precisely metered. The double roller blind with cassette is rolled up and down by means of a chain. The white cartridge ensures a high-quality look and protects the fabric from dust.

white



Fabric 100% polyester, room lighting can be individually adjusted via alternating translucent (height 5cm) and non-transparent (height 7.5cm) strips, aluminium cassette and bottom bar in white, chain pull drive unit on the right, incl. mounting material for ceiling and wall mounting
roller blind width - ca. 2 cm = fabric dimension

Tip: mounting without drilling or screws with clamping bracket art.no. 10004205.

The Comfort Move roller blind can be attached to the window casement by gluing or clamping. Ceiling, wall and niche mounting with screws is also possible. The fabric is opaque but translucent. The Comfort Move roller blind is operated via the bottom rail; the roller blind can be locked at the desired height by pulling or raising it by hand. The roll-up speed can be regulated via an adjustment wheel on the roller blind shaft. The absence of an operating chain not only brings visual advantages and makes operation more convenient - the roller blind is also absolutely childproof according to EN 13120.

white

SMOOTH OPERATION VIA

EASYFIX Roman Blind with 2 operating rails

The EASYFIX Roman blind with 2 operating rails can be mounted on the window casement without drilling or screwing. The adjustable clamp brackets can be adjusted to fit almost any window casement and mounted on it. The EASYFIX Roman blind is tensioned and thus fixed even when the window is tilted. The height of the Roman blind can be adjusted individually using the 2 operating rails. The fabric is attached to the operating rails with Velcro tape and can be easily removed for washing (30° C on a gentle cycle).

white

Fabric 100% polyester woven, transparent, the fabric is attached to the operating rails by means of Velcro tape and is washable at 30° on a gentle cycle, Roman blind individually height-adjustable via 2 aluminium operating rails, including 2 operating handles and 4 plastic clamp brackets for easy installation on the window casement, clamp brackets continuously adjustable (adjustment range approx. 10-35 mm), the carrier system avoids the need to tie the cords again if necessary, tensioned Roman blind can also be fixed when the window is tilted

Flexible sun protection

The flexible sunshade is attached to the window by means of suction pads. As quickly as the flexible sunshade is attached, it is also removed again without leaving any residue. The black screen fabric can be easily cut to size. This makes it suitable for all types of windows: whether in the car, camper van, caravan, garden shed, on the skylight or in the home. The fabric serves as glare and heat protection, but still allows a good view to the outside.

Black

Screen fabric 100% polyester, translucent, easy-care fabric, can be wiped clean with a damp cloth, glare and heat protection and still a good view of the outside, privacy screen during the day, suitable for all windows, including roof and car windows, the fabric can easily be shortened to fit any window size, the fabric is held in place by transparent suction pads

Blackout Curtain Travel

The flexible blackout curtain is the ideal solution for everyone who wants a perfectly darkened room, not only at home. The high-quality fabric is used for darkening for a good night‘‘s sleep or also as heat protection during the day. You want your child to have a restful nap even on holiday, but there is no possibility to darken the room in your holiday apartment, flat or hotel room? The flexible blackout curtain (almost) always fits. Quick and easy to install, it is also ideal for travelling. The suction pads offer maximum flexibility - the size can be adjusted by positioning them. It can be decorated as a curtain or Roman blind. The suction pads mean that no tools or curtain rod are needed and the curtain can be removed and reattached at any time without leaving any residue.

Grey

Blackout curtain, 100% polyester, opaque, easy-care fabric, washable, easy to adjust to any window size, easy to attach, fabric is held in place by transparent suction pads

Note: Suction pads suitable for glass and similar smooth surfaces.

EASYFIX Thermal Pleated Blind with 2 operating rails

The EASYFIX Thermal-Pleated with 2 operating rails can be mounted on the window casement without drilling or screwing. The adjustable clamping bracket can be adapted and mounted to fit on almost any casement. Adhesive and glazing rebate mounting is also possible (optional accessory). The fabric is opaque and energy-saving in cold months and heat-repellent in warm months due to its aluminium-coated reverse side. The EASYFIX Thermal-Pleated can be positioned by hand anywhere on the window by means of the operating rails.

white

Info: Clamp bracket only suitable for windows with rubber seal.

EASYFIX Pleated Blind Katy

The EASYFIX pleated blind Katy can be attached to the window casement without drilling or screwing. The adjustable clamp brackets can be adjusted to fit almost any window casement and mounted on it. The wave design of the fabric is elegant and modern. The fabric is opaque but translucent. The EASYFIX pleated blind Katy can be positioned anywhere on the window by hand using the two operating rails. To make it easier to shorten the pleated blind, it is not threaded in advance.

Wave white

Fabric 100% polyester, translucent fabric printed with discreet Wave decor, 20 mm pleat, individually height-adjustable via 2 aluminium operating rails, easy to shorten in width, including 4 operating handles and 4 clamp brackets for easy installation on the window casement (adjustment range approx. 4-24 mm), tensioned pleated blind for fixing even when the window is tilted, easy to shorten in width, 100% childproof according to EN 13120

		↔ x ↕ (cm)	Art. Nr.	EAN

	1 x 1	100 x 130	32699	4 003018 342236

Info: Clamp brackets only suitable for windows with rubber seal.

Note: To make it even easier to shorten the width of the pleated blind, the pleated blind is not threaded in advance.

EASYFIX Pleated Blind Day + Night

Translucent or darkened? How about both? The EASYFIX pleated blind Day & Night from GARDINIA makes it possible. The Day fabric is translucent and opaque at the same time. With a crush effect, the pleated blind is very decorative. The Night fabric complements it perfectly: it darkens the room for a pleasant night‘‘s sleep. It also has a thermal coating. This reduces the heating of the room in summer. Thanks to the three aluminium operating rails, the fabric panels can be slid up and down as desired. The pleated blind is tensioned to ensure a secure hold even when the window is tilted. The installation is done according to the EASYFIX principle: without drilling and screwing, the clamping brackets can be attached directly to the window casement.

white

Day: fabric 100% polyester, crush effect, opaque, translucent Night: fabric 100% polyester, opaque, with thermal coating, easy to attach directly to the window casement without drilling and screwing, incl. 4 adjustable plastic clamp brackets for easy attachment to the window casement (adjustment range approx. 4-24 mm), 3 handles for convenient, continuous adjustment of the 3 aluminium rails, braced pleated blind also for fixing when the window is tilted, operating rails incl. discreet cover strip (dust protection), can be easily shortened in width, 100% childproof according to EN 13120

Info: Clamp bracket only suitable for windows with rubber seal.

Pleated Blind Solo with sucker

Thanks to the simple and tool-free installation using suction pads, the pleated blind Solo is ideal for rented flats, summer houses, mobile homes and caravans. With the help of the suction pads on the filigree aluminium operating rails, the pleated blind Solo can be individually attached and adjusted to any desired position on the window. The integrated cord guide fixes the pleated blind even when the window is tilted.

white

Fabric 100% polyester, translucent, opaque, 20 mm pleat, fabric can be brushed off, 2 operating rails made of aluminium with integrated cord guide, mounting without drilling and screwing by suction pads, individually adjustable in height, 100% childproof according to EN 13120

Pleated Blind with sucker

The GARDINIA skylight pleated blind with suction pads is available in matching sizes for a wide range of Velux models. However, the pleated blind can also be used on roof windows from other manufacturers without any problems. Only the correct dimensions are decisive here. It is perfectly suitable for rented flats, as neither drilling nor screwing is required for installation and the pleated blind can be removed at any time without leaving any residue. A sophisticated technique prevents the pleated blind from sagging as far as possible, even if the pleated blind is not pulled apart over the entire surface but only covers part of the window.

VENETIAN BLIND

Aluminium Venetian Blind 25 mm

The aluminium Venetian blind is made of a steel head and bottom rail and aluminium slats. The width of the individual slats is 25 mm and the Venetian blind tapes and cords are colour matched. The blind is operated on the right-hand side. Lifting and lowering is carried out by means of a cord and turning of the slats by means of a rod. The fittings are suitable for wall or ceiling mounting. By adjusting the slats, the light and sight incidence can be individually regulated.

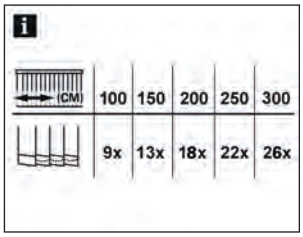
VERTICAL BLIND

Vertikal Blind Leander 127 mm

The vertical blind Leander consists of a white, powder-coated metal headrail and vertical fabric slats made of 100% polyester with a width of 127 mm. The vertical blind is raised using a control cord, the slats are turned using a ball chain. The operating side can be on the right or left side, depending on the installation. The complete system includes mounting material for wall or ceiling mounting. From a rail width of 200 cm, the headrail is folded and the slat package is divided. The fabric slats can be shortened in height. The vertical blind offers a large area shading option with individual light and view regulation. For maintenance, the fabric can be brushed off with a brush or feather duster or carefully wiped with a damp cloth (without detergent).

white Stripes



Fabric 100% polyester, slat width 127 mm, headrail made of metal, powder-coated white, system can be shortened in height, operation/slat package on one side, from 200 cm width headrail folded and slat package divided, including fixing material for wall and ceiling mounting

Tip: Can be mounted at a slant using slope hooks art. No. 32581.

Note: Due to legal requirements for child safety (EN13120), the length of the operating cord/chain is 1 m. An extension of the chains and cords is not permitted.

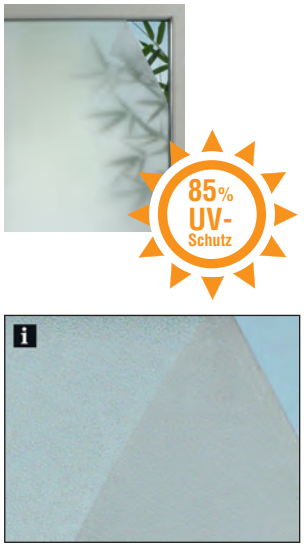
WINDOW FILM

The static window films from GARDINIA adhere without adhesives and can be removed without leaving any residue. They are a versatile visual protection. The static window films filter harmful UV light and ensure a pleasant indoor climate by preventing rooms from heating up quickly. Even in damp rooms such as bathrooms or kitchens, even on the outside of shower walls, the film adheres securely.

Privacy 50



100% PVC, adheres statically to all smooth surfaces, easy to apply, removable and reusable without leaving residue, suitable for use in damp rooms, semi-transparent for privacy protection, privacy screen by day and night, translucent, reduces solar radiation (85% UV protection), easy to clean, durable and robust, can be cut to size individually

Info: Due to production, there may be tolerances of +/- 2 mm in the dimensions.

Panel Curtain Day + Night

The panel curtain Day + Night is equipped with a high-quality aluminium profile, which can be hooked directly into any standard curtain rail without additional panel carriers. The fabric is 100% polyester and woven segmentally. Through an innovative and patented technology, the fabric is superimposed on itself, so that the light can be adjusted as needed. The panel curtain Day + Night can easily be shortened to the desired length.

Panel Curtain Fabric Entry

The panel curtain Entry consists of 87% polyester and 13% nylon. The fabric has a translucent, transparent quality and by means of the special weaving technique creates an interesting fabric structure. The panel fabric Entry is supplied with self-adhesive loop tape (supplied loose) and can therefore be easily shortened from above before fitting. The bottom of the panel fabric has a sewn hemstitch for inserting a weighting profile. For maintenance, the fabric can be carefully brushed with a brush or feather duster or wiped with a damp cloth (without detergent).

Panel Curtain Fabric String Curtain

The panel fabric String Curtain is a decorative and at the same time versatile window hanging. It also cuts a fine figure as a room divider or insect screen. With the sewn loop tape, the string blind can be easily attached to a panel carrier and shortened to the required length. The enclosed laundry net prevents the cords from getting tangled during washing.

Curtain rail Flexline

The curtain rail Flexline is made of plastic and can be used very flexibly. As it can be bent by hand, it is particularly suitable for bay windows, mobile homes and uneven walls or ceilings. The rail can be individually shortened to any length and is suitable for light to medium-heavy curtains. The supplied gliders can be attached with the innovative Easy-Click mounting. Brackets for wall and ceiling mounting as well as end caps complete the scope of delivery.

Curtain rail Flexline

Plastic, incl. brackets for ceiling or wall mounting (12 pcs.), end caps (4 pieces for 2 divided curtain rails) and gliders (36 pieces), can be used flexibly e.g. for bay windows, mobile homes or as a room divider as the rail can be bent by hand, easy Easy-Click mounting, can be shortened individually to any length, suitable for light to medium-heavy curtains, rail height 29 mm

Allgemeine Geschäftsbedingungen

1. Allgemeines - Geltungsbereich
Soweit nicht anders ausdrücklich vereinbart, gelten die nachstehenden "Allgemeinen Geschäftsbedingungen" für alle gegenwärtigen und zukünftigen Geschäftsbeziehungen mit Nicht-Verbrauchern im Sinne des § 310 Abs. 1 BGB. Abweichende, entgegenstehende oder ergänzende Allgemeine Geschäftsbedingungen werden, selbst bei Kenntnis, nicht Vertragsbestandteil, es sei denn, ihrer Geltung wird ausdrücklich schriftlich zugestimmt.

2. Angebote und Vertragsabschluss
Unsere Angebote sind freibleibend. Technische Änderungen sowie Änderungen in Form, Farbe und/oder Gewicht bleiben im Rahmen des Zumutbaren vorbehalten.

Mit der Bestellung einer Ware erklärt der Kunde verbindlich, die bestellte Ware erwerben zu wollen. Wir sind berechtigt, das in der Bestellung liegende Vertragsangebot innerhalb von zwei Wochen nach Eingang bei uns anzunehmen. Die Annahme kann entweder schriftlich oder durch Auslieferung der Ware an den Kunden erklärt werden.

Soweit Angestellte mündliche Nebenabreden treffen oder Zusicherungen abgeben, die über den schriftlichen Kaufvertrag hinausgehen, bedürfen diese stets unserer schriftlichen Bestätigung. Mündliche Erklärungen, abgegeben von uns oder von Personen, die zu unserer Vertretung bevollmächtigt sind, bleiben von der vorstehenden Regelung unberührt.

3. Preise
Unsere Preise verstehen sich stets zuzüglich MwSt. Bei Unterschreitung des Mindestauftragswertes berechnen wir einen Mindermengenzuschlag. Die Höhe des Mindestauftragswertes und des Mindermengenzuschlags ergeben sich aus unseren Preislisten oder separaten Vereinbarungen. Wir nehmen nur bei entsprechender Vereinbarung diskontfähige Wechsel zahlungshalber an. Gutschriften über Wechsel und Schecks erfolgen vorbehaltlich des Eingangs abzüglich der Auslagen mit Wertstellung des Tages, an dem wir über den Gegenwert verfügen können. Bei Zahlungsverzug gelten die gesetzlichen Vorschriften.

4. Versand
Wir liefern generell ab Werk. Kosten für den Versand werden zusätzlich berechnet. Wenn in Sonderfällen Lieferung an Dritte erfolgen soll, können Versand- und Verpackungskosten gesondert berechnet werden.

5. Gewährleistung
Bei Mängeln der Ware leisten wir gegenüber dem Kunden zunächst nach unserer Wahl Gewähr durch Nachbesserung oder Ersatzlieferung.

Schlägt die Nacherfüllung fehl, kann der Kunde grundsätzlich nach seiner Wahl Herabsetzung der Vergütung (Minderung) oder Rückgängigmachung des Vertrages (Rücktritt) verlangen. Bei einer nur geringfügigen Vertragswidrigkeit, insbesondere bei nur geringfügigen Mängeln steht dem Kunden jedoch kein Rücktrittsrecht zu.

Der Kunde muss uns offensichtliche Mängel innerhalb einer Frist von zwei Wochen ab Empfang der Ware schriftlich anzeigen; andernfalls ist die Geltendmachung des Gewährleistungsanspruchs ausgeschlossen. Die Untersuchung der gelieferten Ware hat im Falle einer Montage durch den Kunden immer vor Ausführung der Montage zu erfolgen. Mehraufwendungen, insbesondere Transport-, Wege-, Arbeits-, und Materialkosten, die durch nicht rechtzeitige Untersuchung entstehen, werden nicht erstattet. Zur Fristwahrung genügt die rechtzeitige Absendung. Den Kunden trifft die volle Beweislast für sämtliche Anspruchsvoraussetzungen, insbesondere für den Mangel selbst, für den Zeitpunkt der Feststellung des Mangels und für die Rechtzeitigkeit der Mängelrüge.

Wählt der Kunde wegen eines Rechts- oder Sachmangels nach gescheiterter Nacherfüllung den Rücktritt vom Vertrag, steht ihm daneben kein Schadenersatzanspruch wegen des Mangels zu.

Wählt der Kunde nach gescheiterter Nacherfüllung Schadenersatz, verbleibt die Ware beim Kunden, wenn ihm dies zumutbar ist. Der Schadenersatz beschränkt sich auf die Differenz zwischen Kaufpreis und Wert der mangelhaften Sache. Dies gilt nicht, wenn wir die Vertragsverletzung arglistig verursacht haben.

Sachmängelansprüche verjähren in einem Jahr ab Ablieferung der Ware. Dies gilt nicht, soweit das Gesetz gemäß §§ 438 Abs. 1 Nr. 2 (Bauwerke und Sachen für Bauwerke), § 479 Abs. 1 (Rückgriffsanspruch) und § 634 a Abs. 1 Nr. 2 (Baumängel) BGB längere Fristen vorschreibt. Dies gilt auch dann nicht, wenn der Kunde uns den Mangel nicht rechtzeitig angezeigt hat.

Rückgriffsansprüche gemäß §§ 478, 479 BGB bestehen nur, sofern die Inanspruchnahme durch den Verbraucher berechtigt war und nur im gesetzlichen Umfang, nicht dagegen für nicht mit uns abgestimmte Kulanzregelungen. Sie setzen im Übrigen die Beachtung eigener Pflichten des Rückgriffsberechtigten, insbesondere die Beachtung der Rügeobliegenheiten voraus.

Als Beschaffenheit der Ware gilt grundsätzlich nur die Produktbeschreibung des Herstellers als vereinbart. Öffentliche Äußerungen, Anpreisungen oder Werbung des Herstellers stellen daneben keine vertragsgemäße Beschaffenheitsangabe der Ware dar.

Erhält der Kunde eine mangelhafte Montageanleitung sind wir lediglich zur Lieferung einer mangelfreien Montageanleitung verpflichtet und dies auch nur dann, wenn der Mangel der Montageanleitung der ordnungsgemäßen Montage entgegensteht.

6. Zahlungsbedingungen
Bei Zahlung innerhalb von 10 Tagen nach Rechnungsdatum erhält der Kunde 3 % Skonto. Der Kunde verpflichtet sich, innerhalb von 30 Tagen nach Rechnungsdatum zu zahlen. Nach Ablauf dieser Frist kommt der Kunde in Zahlungsverzug. Das gleiche gilt für Reparaturen.

Werden uns nach Vertragsabschluss Tatsachen, insbesondere Zahlungsverzug hinsichtlich früherer Lieferungen, bekannt, die nach pflichtgemäßem kaufmännischen Ermessen darauf schließen lassen, dass der Kaufpreisanspruch durch mangelnde Leistungsfähigkeit des Kunden gefährdet wird, sind wir berechtigt, unter Setzung einer angemessenen Frist vom Kunden nach dessen Wahl Zug-um-Zug-Zahlung (Nachnahme/Vorkasse) oder entsprechende Sicherheiten zu verlangen und im Weigerungsfalle vom Vertrag zurückzutreten, wobei die Rechnungen für bereits erfolgte Teilleistungen sofort fällig gestellt werden.

Eine Aufrechnung ist nur mit von uns anerkannten oder rechtskräftig festgestellten Forderungen möglich.

7. Eigentumsvorbehalt
Wir behalten uns das Eigentum an der Ware bis zur vollständigen Begleichung aller Forderungen aus einer laufenden Geschäftsbeziehung vor.

Bei Zahlung mit Scheck-Wechsel (auch Finanzierungs-, Umkehr- oder Akzeptanten-Wechsel genannt), wird der Eigentumsvorbehalt dahingehend vereinbart, dass das Eigentum erst auf den Kunden übergeht, wenn nicht nur der Kaufpreis gezahlt ist, sondern auch wirksam feststeht, dass wir aus dem Wechsel nicht mehr in Anspruch genommen werden.

Der Kunde ist verpflichtet, uns einen Zugriff Dritter auf die Ware, etwa im Falle einer Pfändung, sowie etwaige Beschädigungen oder die Vernichtung der Ware unverzüglich mitzuteilen. Einen Besitzwechsel der Ware sowie den eigenen Wohnsitzwechsel hat uns der Kunde unverzüglich anzuzeigen.

Wir sind berechtigt, bei vertragswidrigem Verhalten des Kunden, insbesondere bei Zahlungsverzug, vom Vertrag zurückzutreten und die Ware heraus zu verlangen.

Der Kunde ist berechtigt, die Ware im ordentlichen Geschäftsgang weiter zu veräußern. Er tritt uns bereits jetzt alle Forderungen in Höhe des Rechnungsbetrages ab, die ihm durch die Weiterveräußerung gegen einen Dritten erwachsen. Wir nehmen die Abtretung an. Nach der Abtretung ist der Kunde zur Einziehung der Forderung ermächtigt. Wir behalten uns vor, die Forderung selbst einzuziehen, sobald der Kunde seinen Zahlungsverpflichtungen uns gegenüber nicht mehr ordnungsgemäß nachkommt und in Zahlungsverzug gerät.

Die Be- und Verarbeitung der Ware durch den Kunden erfolgt stets im Namen und im Auftrag für uns. Erfolgt eine Weiterverarbeitung mit uns nicht gehörenden Gegenständen, so erwerben wir an der neuen Sache das Miteigentum im Verhältnis zum Wert der von uns gelieferten Ware zu den sonstigen verarbeiteten Gegenständen. Dasselbe gilt, wenn die Ware mit anderen, uns nicht gehörenden Gegenständen vermischt ist.

Wird Vorbehaltsware vom Kunden als wesentlicher Bestandteil in das Grundstück, Schiff, Schiffsbauwerk oder Luftfahrzeug eines Dritten eingebaut, so tritt der Kunde schon jetzt die gegen den Dritten oder den es angeht entstehenden abtretbaren Forderungen aus Vergütung in Höhe des Wertes der Vorbehaltsware mit allen Nebenrechten einschließlich eines solchen auf Einräumung einer Sicherungshypothek mit Rang vor dem Rest ab; wir nehmen die Abtretung an.

Mit Zahlungseinstellung und/oder Antrag auf Eröffnung des Insolvenzverfahrens erlöschen das Recht zur Weiterveräußerung, zur Verwendung oder Einbau der Vorbehaltsware oder die Ermächtigung zum Einzug der abgetretenen Forderungen; bei einem Scheck- oder Wechselprotest erlischt die Einzugsermächtigung ebenfalls. Dies gilt nicht für die Rechte des Insolvenzverwalters.

Übersteigt der Wert der eingeräumten Sicherheiten die Forderung (ggf. vermindert um An- und Teilzahlungen) um mehr als 20 %, so sind wir insoweit zur Rückübertragung oder Freigabe nach unserer Wahl verpflichtet. Mit Tilgung aller unserer Forderungen aus der Geschäftsverbindung gehen das Eigentum an der Vorbehaltsware und die abgetretenen Forderungen auf den Kunden über.

Soweit auf den Wert der Vorbehaltsware abgestellt wird, ergibt sich dieser aus dem Betrag unserer Rechnungen (Faktura-Wert).

Ist zwecks Zentralregulierung mit oder ohne Übernahme einer Bürgschaft für Forderungsausfälle (Delkredere) ein Dritter vertraglich eingebunden, so werden Zahlungen an diesen nur dann mit schuldbefreiender Wirkung geleistet, soweit der Dritte die Zahlung auch an uns weiterleitet. Unser vorgenannter Eigentumsvorbehalt bleibt bis dahin voll bestehen.

8. Gerichtsstand und anzuwendendes Recht
Erfüllungsort und Gerichtsstand für Lieferungen und Zahlungen (einschließlich Scheck- und Wechselklagen) sowie sämtliche zwischen den Parteien sich ergebenden Streitigkeiten, ist, soweit der Kunde Kaufmann, juristische Person des öffentlichen Rechts oder öffentlich-rechtliches Sondervermögen ist, Isny im Allgäu. Wir sind jedoch berechtigt, den Kunden auch an seinem Firmensitz zu verklagen.

Es gilt das Recht der Bundesrepublik Deutschland. Die Bestimmungen des UN-Kaufrechts finden keine Anwendung.
